INTERNATIONAL PRELIMINARY E	EXAMINATION REPORT	T
-----------------------------	--------------------	---

International application No.
PCT/IN 03/00006-0

I.		Basis of the report
1.		regard to the elements of the international application:*
	\boxtimes	the international application as originally filed
		the description:
		pages, as originally filed
		pages, filed with the demand
		pages, filed with the letter of
		the claims:
		pages, as originally filed
		pages, as amended (together with any statement) under Article 19 pages, filed with the demand
		pages, filed with the letter of
		· · · · · · · · · · · · · · · · · · ·
	Ч	the drawings: pages, as originally filed
		pages, filed with the demand
		pages, filed with the letter of
		the sequence listing part of the description:
	L	pages, as originally filed
		pages, filed with the demand
		pages, filed with the letter of
2.	whi	h regard to the language, all the elements marked above were available or furnished to this Authority in the language in ch the international application was filed, unless otherwise indicated under this item. se elements were available or furnished to this Authority in the following language which is:
		the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).
		the language of publication of the international application (under Rule 48.3(b)).
		the language of the translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/ or 55.3).
3.		h regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international iminary examination was carried out on the basis of the sequence listing:
		contained in the international application in printed form.
		filed together with the international application in computer readable form.
		furnished subsequently to this Authority in written form.
		furnished subsequently to this Authority in computer readable form.
		The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
		The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.
4.		The amendments have resulted in the cancellation of:
		the description, pages
		the claims, Nos
		the drawings, sheets/fig
5.		This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**
*	Replain the	ncement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to s report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 1).
		replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.

Form PCT/IPEA/409 (Box I) (July 1998))

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No. PCT/IN 03/00006-0

	Statement			
No	Novelty (N)	Claims	3,11-22,27-40,43	YES
		Claims	1,2,4-10,23-26,41,42	NO
-	Inventive step (IS)	Claims	3,11-22,27-40,43	YES
		Claims	1,2,4-10,23-26,41,42	NO
_	Industrial applicability (IA)	Claims	1-43	YE
		Claims		NO

The following documents have been cited in the Search Report:

D1: EP 1288211 A1 D2: WO 2001/068627 A1

The first document cited in the search report discloses the cyanide exchange in the presence of an iodide salt for the manufacture of citalopram as described in the present application.

In the WO 2001/068627 A1 the crystallisation of citalogram from a hydrocarbon and an ether is already mentioned and forms therefore part of the state of art.

Therefore these both parts of the present application (= claims 1,2,4-10, 23-26, 41, 42) are not new and do not involve an inventive step.

Industrial applicability is given.
